Bala Gurunadham Pamba

Senior Flutter Developer | Cross-Platform Mobile Engineer (3+ Years Experience)

+91 6302125421 balupamba1@gmail.com Hyderabad, Telangana, India linkedin.com/in/balu142

PROFESSIONAL SUMMARY

Versatile **Senior Flutter Developer** with **3+ years of production experience** engineering robust cross-platform mobile applications across diverse domains including **Retail & Restaurant POS Ecosystems**, On-Demand Delivery, Field Employee Tracking, Real Estate, and Tele-services. Specialized in **MQTT real-time state synchronization**, **offline-first architectures** (SQLite, Isar, Hive), **POS hardware integrations** (thermal printers, barcode scanners, weighing scales, payment terminals), and multi-gateway payment processing (Razorpay, Cashfree, UPI, Payroc, Kickback, Tap to Pay). Competent with **NestJS backend APIs** and **React.js web portals**. Successfully engineered and published **10+ production applications** to the Google Play Store with active commercial user adoption.

PROFESSIONAL EXPERIENCE

Flutter Developer • Alekya Tech Solutions (OPC) Pvt Ltd — Dec 2025 – Present | Hyderabad, India

- Spearheaded mobile engineering for the **Pinaka POS Ecosystem**, a real-time, multi-application Point of Sale platform serving Retail and Restaurant enterprise clients.
- Architected the **Restaurant Suite** (POS Terminal, Kitchen Display System - KDS, Captain tableside order app), integrating **MQTT real-time messaging** for sub-second bi-directional order sync across all connected devices.
- Developed the **Retail Suite** powering Grocery, Convenience Store, Boutique, Customer Facing Display (CFD), and Self-Service Kiosks with domain-specific checkout flows.
- Integrated **Payroc & Kickback card payment gateways** with dynamic PIN pad pairing, Tap to Pay, tip management, refund processing, and split/partial/void payment handling.
- Implemented **UPI payments via Razorpay and Cashfree**, cash drawers, EBT transactions, and digital wallet checkout flows.
- Engineered **offline-first local database architecture** utilizing SQLite, Isar, and Hive; built automatic conflict reconciliation to ensure 100% billing uptime during network outages.
- Integrated critical **POS hardware peripherals** via Android Native code (NDK/USB/Serial): weighing scales for automated weight-based billing, thermal receipt printers (ESC/POS), barcode/QR scanners, and driving license scanners for auto-filling customer records.
- Built an **MQTT Customer Display App** mirroring live cart totals and payment QR codes in real time, and contributed to **NestJS backend APIs** and **React.js web admin portal**.

Flutter Developer • Suvidha Software Solutions Pvt Ltd — Jun 2024 – Aug 2025 | Hyderabad, India

- Developed and scaled **multiple commercial Flutter applications** spanning grocery delivery, employee CRM tracking, news aggregation, real estate marketplace, medical delivery, and on-demand home service bookings.
- Engineered reliable **background location tracking services** that continuously monitor employee GPS coordinates and route history even after application termination.
- Implemented real-time chat modules (Firebase Firestore / WebSockets), personalized **Firebase Cloud Messaging (FCM)** push notification workflows, and subscription-based user access controls.
- Integrated seamless payment processing with **Razorpay, Cashfree, and UPI** for on-demand checkout workflows.
- Integrated **Google Maps Platform** with live distance calculation, geofencing, route visualization, and real-time delivery rider tracking.
- Hardened mobile security using single-device login enforcement, anti-screenshot protection, and encrypted local storage.
- Successfully published and maintained **8+ applications on the Google Play Store**, overseeing store compliance, release cycles, crash diagnostics, and production updates.

Flutter Developer • Rubia Services (OPC) Pvt Ltd — Jan 2024 – Jun 2024 | Hyderabad, India

- Engineered cross-platform mobile application modules using Flutter and Dart with clean architecture and responsive UI.
- Integrated RESTful APIs, handled complex JSON state serialization, network caching, and automated error handling.
- Conducted unit and widget testing, identified and resolved UI rendering bottlenecks, memory leaks, and dependency conflicts.

KEY FEATURED PROJECTS

Pinaka POS Ecosystem `Flutter • MQTT • NestJS • React.js • Offline-First`

Multi-tenant POS platform for Retail and Restaurant operations. Built real-time sync with MQTT across POS, KDS, and Captain apps. Integrated thermal printers, barcode scanners, weighing scales, and Payroc/Kickback card payment gateways.

WOTG (Work On The Go) – Employee Tracking & CRM `Flutter • Background Geolocation • Google Maps • FCM`

Dual mobile application ecosystem (Employee & Admin) featuring background GPS tracking that persists through app termination, task dispatching, Google Maps route mapping, and real-time messaging.

Vfix4u & Madad On-Demand Service Ecosystems `Play Store • Flutter • Razorpay • Multi-Role RBAC`

Comprehensive three-tier ecosystems (Customer, Service Provider, Field Serviceman) for electronics repair and vehicle detailing with live cart updates, booking calendar, and Razorpay/Cashfree payment flows.

Thetatelugu OCR & Voice Utility App `Flutter • Amazon Textract • Multi-Modal Input`

Accessibility utility app integrating Amazon Textract OCR to extract Telugu text from physical camera captures, alongside voice recognition and automated translations.

TECHNICAL SKILLS

Programming:	Dart, JavaScript, TypeScript (basic), HTML5, CSS3
Mobile Frameworks:	Flutter (Android & iOS), React Native (basics), Android Studio, Gradle, Material Design 3
State Management:	GetX, Provider, BLoC / Cubit
Real-Time & Backend:	MQTT (real-time broker sync), Firebase (Auth, Firestore, Cloud Functions, FCM), REST APIs, NestJS (working knowledge), Node.js
POS & Hardware:	Weighing Scale Integration, Thermal Printers (ESC/POS), Barcode/QR Scanning, Card Readers, Cash Drawers, Driving License Scanners, KDS
Payment Gateways:	Razorpay, Cashfree, UPI, Payroc, Kickback, NMI, TYSY, Tap to Pay, Stripe
Local Storage & Sync:	SQLite, Isar, Hive, Offline-First Synchronization
Maps & Services:	Google Maps Platform, Background GPS Tracking, Geofencing, Amazon Textract
Tools & Practices:	Git, GitHub, Postman, Play Store Publishing, Unit/Widget Testing, CI/CD, Agile/Scrum

EDUCATION & CERTIFICATIONS

Bachelor of Technology (B.Tech) • Rise Krishna Sai Group of Institutions — 2022 | Ongole, India

Flutter Mobile Application Development Certification • Rubia Services / Suvidha Software Solutions — Jan 2024
